Summary

I'm an ambitious problem-solving web developer and open source contributor who is continually boosting a powerful set of technology skills. Enjoys working with personnel in all areas of the company to help boost profits and improve opportunities.

In my opinion, a great site is not measured by looks alone, but also by functionality and usability. I'm not the atypical designer but then I possess good visual abilities and this has helped greatly with my presentation skills which allow me to successfully present design ideas to stakeholders and even design teams.

When I'm not coding I'm either learning new updates on my tech stack or listening to cool vibes.

Experience

Contributor

Layer5

Sep 2020 - Present (3 months +)

Front End Developer

digitaldesign247.com

2018 - Present (2 years 11 months +)

Website design and development

Education

Digital Design247 Technologies

Frontend Development

2017 - 2018

I'm a frontend Developer

Agboju senior secondary school

Literature

2014 - 2017

Licenses & Certifications

Frontend Bootcamp - Udemy

JavaScript - IBM
